The Community

SDSU is a community of people committed to student success. As the oldest and largest higher education institution in the San Diego region, SDSU has deep roots and connections. You'll have access to valuable internships, volunteer opportunities, and practical wisdom from experts in your field of study to enhance your classroom instruction.

SDSU enjoys a well-deserved reputation for an abundance of student activities outside the classroom. Whether you want to play a sport, join one of nearly 300 clubs and organizations or an honor society, lead a community service project, live on SDSU’s fraternity row, write for the student newspaper, or run for student office, you’ll find something to round out your college experience.

Campus Safety

The San Diego State University Police Department has a force of 34 sworn police officers and 67 support staff, with plans of increasing in size with 10 additional officers in the next year. Our police officers are graduates of the California Peace Officers Standards Training Academy and have peace officer powers throughout the State of California. Whether on foot, behind the wheel of a patrol car, or patrolling on bicycle, they are here to protect and serve the campus community and adjacent neighborhood 24 hours a day.

Student Experiences and Perceptions

Students who are actively involved in their own learning and development are more likely to be successful in college. Colleges and universities offer students a wide variety of opportunities both inside and outside the classroom to become engaged with new ideas, people, and experiences. Institutions measure the effectiveness of these opportunities in a variety of ways to better understand what types of activities and programs students find the most helpful.

CLICK HERE for examples of how SDSU evaluates the experiences of its students.

In addition, institutions participating in the VSA program measure student involvement on campus using one of four national surveys.

Results from the survey are not yet available.
Student Learning Outcomes

All colleges and universities use multiple approaches to measure student learning. Many of these are specific to particular disciplines, many are coordinated with accrediting agencies, and many are based on outcomes after students have graduated. In addition, those institutions participating in the VSA measure increases in critical thinking, analytic reasoning, and written communication using one of three tests.

Pilot Project to Measure Core Learning Outcomes

As a pilot project, VSA participants measure critical thinking, analytic reasoning, and written communication using one of three tests. Following are the results from the Collegiate Learning Assessment (CLA). Such general skills are applicable and useful for both career and personal success and are important outcomes of college regardless of a student’s major. The CLA measures critical thinking, analytic reasoning and written communication using two different tasks -- a performance task and an analytic writing task.
